(NSFW) The NZ Shooting and Bloodstain Pattern Analysis

I decided to make this post after a handful of comments today on this subject. I welcome the collective mind to murderboard this theory with facts and science. Shills, save your shit for someone else.

BLUF: Video "broadcast" by the "shooter" in the Christchurch, NZ mosque video shows very strong evidence that none of the victims in the main hall were shot with a with a high-velocity, small-caliber 5.56 rifle round as evidenced by Bloodstain Pattern Analysis (BPA). Background: Bloodstain Pattern Analysis (also known as Blood Spatter Analysis) is a forensic science relying heavily on ballistics, mathematics, physics, serology, hematology, materials engineering and other hard sciences. BPA recreates the actions of a

shooting based on the science and data behind gunshot wounds (GSW). BPA discoveries are widely recognized as near irrefutable science in a court of law in the United States. BPA background:

Now let's look at some examples of BPA from the main hall in the Mosque (Linwood? if someone can fill in the name of the building, I'd be grateful):

- @6 (<https://web.archive.org/web/20190329194727/https://voat.co/u/6>):58: Shooter fires an almost level trajectory at 10-12 people. No blood spatter on the wall:
<https://files.catbox.moe/cg8yqp.GIF>  (<https://web.archive.org/web/20190329194727/https://files.catbox.moe/cg8yqp.GIF>)
- @07 (<https://web.archive.org/web/20190329194727/https://voat.co/u/07>):04: Shooter gets head/upper torso shot against the outside corner of a wall while victim moves in direction down hall. At 07:18, shooter returns past same wall and there is no blood on wall from a pointblank shot: <https://files.catbox.moe/omhctd.GIF>  (<https://web.archive.org/web/20190329194727/https://files.catbox.moe/omhctd.GIF>)
- @07 (<https://web.archive.org/web/20190329194727/https://voat.co/u/07>):11: Shooter shines his weapon light on a victim lying facedown on the floor. Note the complete lack of blood spatter, spray or pooling from a multiple GSW: <https://files.catbox.moe/fvsvhk.GIF>  (<https://web.archive.org/web/20190329194727/https://files.catbox.moe/fvsvhk.GIF>)
- @07 (<https://web.archive.org/web/20190329194727/https://voat.co/u/07>):23: Shooter returns to shooting previously shot people still in pile. Again, no blood consistent with over 100 5.56 rounds fired on 15-20 people against a white wall: <https://files.catbox.moe/p62f7j.GIF>  (<https://web.archive.org/web/20190329194727/https://files.catbox.moe/p62f7j.GIF>)

There are no signs of mass pooling from multiple GSW. All of the victims are against, or within 5' of a wall when they are shot. This is also worth a read on debunking a snuff film: <http://www.alexanderjason.com/analysis-of-a-snuff-video-is-it-real> (<https://web.archive.org/web/20190329194727/http://www.alexanderjason.com/analysis-of-a-snuff-video-is-it-real>)

In summary, there is nothing in the video to support that "victims" within this room and the hallway leading up to it were shot with a fatal weapon.

Please feel free to share this work. Spread the word. Fuck their feelings.

And there's the strange phenomenon of the ejected casings disappearing in midair in the video. I've seen a lot of first hand combat and as a medic am very familiar with gunshot wounds. This doesn't jive with any gunshot wounds I've ever seen.

Thank you for your service. BTDT as well. That's why I know what I'm looking at is bullshit.

The disappearing brass is pure magic, LOL. I think they pushed a mix of CGI, pre-produced video, and some indoor staging at the mosque. For all I know, the video was never real-time. Also, notice the shooters phone appears to be head mounted? HTH would you do that.

Great work, thanks for posting!

There is also a video showing "supposed" dead people get up and text on their phones:

<https://voat.co/v/GreatAwakening/3103941#submissionTop>
(<https://web.archive.org/web/20190329194727/https://voat.co/v/GreatAwakening/3103941#submissionTop>)

Carpeting is different, so it is either a video of the 2nd mosque or it is a video of the "dress rehearsal".

ALSO, there is a popular New Zealand Talk Show Host who claims this shooting is New Zealand's "911", interviews a former Black Ops person.

Also, no sounds of brass hitting concrete after the last trigger pull, yet you can hear the polka music in his car as he's 30-40' away from it as he enters the courtyard.

When he runs over that woman, there isn't any blood spatter on the windows. And when he's shooting at the windshield from inside the car, why didn't that shatter???

you can see the brass hitting the ground if all you watch is the ground. but that isnt the thing you should be looking at. watch the windshield inside the car when he shoots it multiple times with no damage. He had to put the barrel on the glass to do any damage and it still didnt make a hole in the glass. blanks do damage and can kill that is why the side window broke.

it is a complete hoax staged shooting. lots of magic tricks in this live stream. No Holes in any of the walls. no realistic blood splatter at any time. a combo of blanks and training ammo along with real dolls rigged with squibs. like all the bodies in the corner that he didnt shoot yet.

I was wondering about the windshield.

It did look fucked up after all those rounds. But wouldn't a bullet go right through and not smoke out the window?

Blanks often have a wax "Bullet/Plug". That was a pump action rifle. The windshield should have shattered, but only cracks. When he shoots out the passenger side window it breaks but not with the square safety glass appearance.

If it was staged, they would carefully record it. Then play the recorded video through the livestream. FB was down the prior two days before the livestream.

What is your take on the indoor headshot with the blood spray when he comes back in the second time?

What is your take on the outdoor headshot on the woman on the curb?

BTW this is a fantastic post, great information, and definitely great that we can get a discussion going. The shill posts over the past few days on anything related to the video analysis has been a big problem.

Give me a time hack on the source video for your first quesry. I need to relook the woman. It looked like a dummy with a small pyro charge in the head TBH. No movement, yet you hear her crying out. Head shot to blow a 3"x3" piece of scalp off and no blood spray? Headshots are messy.

You can see her roll over the curb, the gunman turns away as she's doing it so you only get a quick look, the roll looks strange. She's saying "help me" but the way it is repeated almost sounded looped. Any sound engineers want to take a crack at that? We're wondering if the inflection is exactly the same. As that would be virtually mathematically impossible especially given the circumstances.

He had had enough time inside the mosque during the second round of shooting for someone to have positioned a dummy if that's what it is.

Also, seeing someone from a distance then losing sight of them, how do we know the person on the curb is the same one? The original person could easily have just took the corner and run down the alley by the gunman's car, then back around the building.

Not saying that this is what happened, but it seems a little too much like the helicopter thing in the movie *Swordfish*, so it stuck out.

She was walking along the sidewalk and he shot her when he came outside. Did you fucking people even watch the video?

exactly not one person putting there hands up saying dont shoot me. all faced down some bullshit. plus where is all the blood from where he shot her the first time and then she rolled over and no blood marks. i have been within a foot of my friends being shot and the blood is all over right away.

More importantly, why didn't a bullet hit the cement post of the fence. He nailed her perfectly with a weapon that should have hit the post.

Was a state certified evidence tech for 7 year. What a staged POS that video was. No wonder they're going crazy trying to keep it off the net. Anyone with any forensic training can see this was staged. Some joe joe with a bucket threw red stuff, possibly animal blood on the walls. One wall looks like he used a paint brush. Probably some idiot Palestinian director who faked all those bomb scene dead children (using the same kids over and over) had a hand in this.

I think this is absolutely legitimate. Unleashing round after round into that pile of "bodies" there eventually should have been more hamburger and blood

Sorry for not being clear...I think your analysis seems accurate. The video didn't pass the sniff test on 2nd watching for me and I think there is a lot of dis info going on. I don't buy the video compression explanation for example...I would like to know if any pause fags have been able to find ANY casings on the floor...shoot that much you are going to get some piling up somewhere

I think your post is legit but you never mention anything after 7:23. There are things you missed:

10:32. Blood and bodies.

10:37. Blood and bodies.

10:30 - 10:45 expended casings clearly visible on the ground.

10:57. Body loses its hat after being shot

11:19. The man inbetween the 2 groups of bodies. Bloodspray

This entire time we see blood and spent cases

11:46. He drops the "Help Me" woman at a distance

12:06. The "Help Me" woman gets double tapped. Bloodspray

12:50. He uses a shotgun to fire at people getting into cars, clears a jam, then starts driving again.

13:20. Fires his last shot out his passenger window.

16:55 Video stops.

There was certainly blood pooling and bodies. Personal opinion, but wheather or not they knew they were going to be real victems is a diff story.

Several people did actually die in the Boston Bombing. The ones next to
the trash can that exploded. There were local funerals in Massachusetts
for those individuals.

Quite a few things of note here.

Bodies which seem to already be in heaps in the corner, before shooter even
enters the room, let alone fires a shot.

Not a single scream. Seriously. 50+ victims, no screams, not a cry for help. No
one even raises their voice.

No writhing. No movement. No people rushing about like mad. Again. Silent unmoving mass of bodies easily seen before shooter enters the fucking room.

Shooter doesn't even seem to be breathing heavy. Hes not stressed. Either hes a code red running SEAL, or hes been trained somewhere. Even psychopaths get a rush.

Conspicuous lack of blood. Ive worked the streets. I dont care if its a .22lr hes toating. Blood would be everywhere.

"Execution" style shooting outside building - particulate matter from headshot sprays in the wrong direction, given angle of weapons barrel. A 45 degree angular shot should see visera from the lower left quadrant of the victims head. Instead it comes from front.

As usual BS21 thank you for being awake enough to reference MK.

Need to find and paw through his social media for the tell-tale symbols.

This guy was a puppet for the larger goal, test censorship, test the deepstates ability to blanket pull media and shut down key info sharing, apply economic pressure to certain places in the region (like the one hosting 8chans servers..?) and provide an "example" for the West of how to deal with guns following a shooting.

I pessimistically await America's ff any day now... :(

Ps - check out the submission I pinned you in earlier this week.
